Forecast For Northwest England
Issued by Met Office Exeter
at 0400 on Wednesday 23 Jun 2021

++ Valid for broadcast between 0600 and 1800

Headline:
A cloudy day with light rain in the west.

Today:
A cool start, with patchy light rain and drizzle arriving over western coasts. This then becomes more widespread across the region as the day goes on, accompanied by thick cloud. Feeling cool under the cloud. Maximum temperature 18 deg C (64 deg F).

Tonight:
Staying cloudy overnight, with an area of more organised light rain and drizzle pushing southwards across the region, this becoming patchier by morning. Minimum temperature 13 deg C (55 deg F).

Thursday:
A damp and cloudy start for the south, as light rain and drizzle continues pushing southwards. Becoming drier and brighter from the north later, bringing a risk of showers. Maximum temperature 20 deg C (68 deg F).

Outlook for Friday to Sunday:
Unsettled conditions throughout, with good bright and largely dry spells across the region. Risk of outbreaks of rain or showers however, these heavy at times. Cool initially but getting warmer.
